

Do you have a child with Autism Spectrum Disorder?

If your child is 6-25 years old, this study may be for you.

Dr. Andrew Adesman, a pediatrician at Cohen Children's Medical Center, is conducting a study on **gender identity development in youth with ASD**. We are looking for parents of children ages 6-25 years old with ASD.

Our goal:

Understanding how gender identity develops in individuals with Autism Spectrum Disorder

Your responses to this questionnaire are instrumental to help us better assist individuals with ASD, and their families, who may have gender-related concerns.

Eligibility:

- Must be a parent of a child with Autism Spectrum Disorder
- Your child must be between 6-25 years old

Participation:

- Short, completely anonymous and confidential questionnaire
- Takes 10-15 minutes to complete
- Completion is voluntary

Access the Questionnaire:
