Join us on a journey through the often confusing transition process that begins at age 14 in Pennsylvania and moves into the adult world of state-funded services. How do the waiting lists work in PA? What do services on adult waivers look like? What other programs are available as we transition through high school and into adult years of services? How can we maximize the support services we are already getting?

This will be an open discussion about services and programs available to you in Chester County with plenty of time for questions and answers, to hopefully, create a comfort zone for you and your family regarding life in the real world of postsecondary education, employment and independent living.
